

Fostering Relations Duty of Candour Annual Report (April 2023 - March 2024)

The ‘duty of candour’: Our legal obligations

The Health (Tobacco, Nicotine etc. and Care) (Scotland) Act 2016 (The Act) and The Duty of Candour Procedure (Scotland) Regulations 2018 (the Regulations) set out a new Duty of Candour. The Act and the Regulations require organisations providing health services, care services and social work services in Scotland to follow a formalised procedure when there has been an unintended or unexpected incident that results in death or harm (or additional treatment is required to prevent injury that would result in death or harm). The purpose of this new duty is to ensure that providers are open, honest, supportive and providing a person-centred approach.

Every health and social care professional must be open and honest with service users when something goes wrong. Services must tell the person, apologise, offer appropriate remedy or support and fully explain the effects to them.

As part of our responsibilities, we must produce an annual report to provide a summary of the number of times we have trigger duty of Candour within our service,

We must prepare and publish a duty of candour report annually, providing information about when and where we have applied the duty of candour as well as outlining learning and any changes made. Our annual report is published on our website and we have made suitable arrangements to communicate the duty of candour report to people who use our services.
